## EXECUTIVE SUMMARY

---

Air Base Elementary School was built in 1958. It became a "School of Choice" in 1995. Air Base Elementary School, The Center for International Education, was designed to provide heightened global perspectives by combining interdisciplinary course work with intensive language and cultural studies within an advanced academic curriculum. The International Education Program provides students with the skills needed to achieve their career goals, as well as, opportunities to develop new career fields for the global society of the 21st Century.

Air Base Elementary has been awarded the National Magnet School of America Award for nine years and has maintained the State Accountability Grade of "A" for the past six years. The goal of the magnet program at Air Base Elementary is threefold. Primarily, students are provided with a strong academic foundation and an international perspective that promotes better understanding and appreciation of other countries. The magnet curriculum prepares students for living in the global society of the 21st century where cultures cooperatively interact with one another. This enables students to live more effectively in an increasingly interdependent world by providing an academic setting that fosters their development as literate, multi-cultural, and multi-lingual individuals.

After analyzing and evaluating data such as the Stanford Achievement Test, Florida Comprehensive Assessment Test, the 2006-2007 School Improvement Plan Year-End Progress report, Air Base Elementary School, in conjunction with the Educational Excellence School Advisory Council (EESAC), has identified the following objectives as school wide priorities for the 2007-2008 school year:

Given instruction based on the Sunshine State Standards, students in grades three through five will improve their reading skills as evidenced by 84 percent or more of the students meeting high standards on the 2008 administration of the FCAT Reading Test.

Given instruction using the Sunshine State Standards, students in grades three through five will improve their mathematics skills as evidenced by 87 percent of the students achieving the state required mastery level as documented by scores on the 2008 administration of the FCAT.

Given instruction using the Sunshine State Standards, students in grade four will demonstrate their proficiency in writing skills, as evidenced by 98 percent of the students achieving the state required mastery level as documented by scores on the 2008 administration of the FCAT.

Given instruction based on the Sunshine State Standards, the number of students meeting high standards in grade five will increase by 10 percent to 61% on the 2008 FCAT Science Test as compared to the 2007 administration of the FCAT Science Test.

Given increased attention to parental involvement, there will be a five percent increase in parental participation/attendance at school sponsored activities, as evidenced by parent participation logs and attendance rosters for the 2007-2008 school year, as compared to those of the 2006-2007 school year.

Given increased attention to the students' daily attendance, the rate will increase by five tenths (.5) percent in the 2007-2008 school year.

Given instruction with an emphasis on the use of technology in education, all students will augment their usage of Reading Plus Program as evidenced by providing students in grade 3 through 5 having a minimum of 30 hours of usage for the 2007-2008 school year.

Given instruction in physical education classes, a minimum of 325 students will earn an award at the silver level of achievement or higher indicating an annual increase of 1 percent award recipients as measured by the FITNESSGRAM, based on the 2007-2008 award winners.

Given emphasis on the benefits of participating in extra curricular programs, the number of students enrolled in extracurricular programs will increase by 10% during the 2007-2008 school year as compared to the 2006-2007 school year.

Air Base Elementary will improve its ranking on the State of Florida Return on Investment (ROI) index publication from the 61st percentile, in 2004-2005, to the 62nd percentile on the next publication of the index.

Air Base Elementary has identified two challenges hindering the goal to advance learning opportunities. Analysis of the Organizational Performance Self Assessment Snapshot (OPIS) reflected the lowest categories to be Strategic Planning, Process Management and Business Results. These categories scored a 4.4. This demonstrates a need for additional involvement of its employees in the development of curricular resources and technology to meet state standards and achieve maximum academic growth toward mastery of student achievement goals.

A school wide effort will focus on the development, coordination, and implementation of activities and programs utilizing best practices which will foster increased parental involvement. An emphasis will be placed on the improvement of reading, mathematics, writing, science processing skills, and cooperative learning to improve student achievement. The faculty will utilize the Competency-Based Curriculum, while employing an international perspective of study, through intensive language immersion and cultural integration. All staff members will participate in the implementation of this plan. Strategies are designed to encourage higher order thinking skills for all students including English Language Learner (ELL) and Special Education (SPED).

### ***School Demographics***

---

Air Base Elementary School, The Center for International Education, built in 1958 on 9.53 acres serves approximately 650 students (pre-kindergarten through fifth grade) and is located at 12829 SW 272 Street Miami, Florida. Most of the students arrive at school either by bus or by private transportation. As a school without boundaries, the student body is comprised of children residing in areas throughout the District.

Air Base Elementary School, as a dedicated International Magnet School offers a rigorous academic program with a comprehensive course of international studies. The magnet program combines interdisciplinary curriculum, intensive second language immersion, and in-depth cultural studies all linked to the development of professional skills valued in a future global job market. Innovative practices include emphasis on the application of critical thinking and analytical problem solving through extensive use of technology. The Foreign Language Team/Department provides instruction in French, Spanish as a second language and advance Spanish for native Spanish speakers. The school's population for 2007-2008 is projected to reach 650 students of diverse, ethnic and socioeconomic backgrounds.

Air Base Elementary has a grade configuration of pre-kindergarten through fifth grade. The students' racial/ethnic ratio is 15% White, 24% Black, 55% Hispanic, and 7% Asian/ Indian/Multiracial. The school employs a total of 63 full-time teachers two administrators (1 principal and 1 assistant principal), 1 lead teacher, 7 paraprofessionals and 4 support and clerical personnel. The ethnic breakdown of instructional staff is as follows: 33% White, 6% Black and 61% Hispanic. Seventeen percent of the teachers are male, while 53% are female. 32% of the teachers hold master's degrees while 4% have obtained specialist degrees. Areas of certification include Early Childhood Education, Elementary Education, ESOL, French, Mathematics, Spanish, and Students with Disabilities, Reading, Leadership and Guidance. The faculty has an average of six years teaching experience in Florida. Thirteen percent of the teachers on staff are new to the school. Four teachers have obtained National Board Certification.

The school has an active leadership team known as the "Leadership Cadre". This cadre is comprised of the principal, assistant principal, lead teacher, counselor, one chairperson from each grade level (Kindergarten through fifth grade), one department chairperson representing Foreign Language and Fine Arts and one chairperson representing gifted, SPED and ELL.

The school has Special Education (SPED) population of 10.2%, a gifted population of 11%, and an English Language Learner (ELL) population of 11.5%. Based on the percentage of students receiving free and reduced lunch, 58.5% of the population is from economically disadvantaged homes. Approximately 96% of the students are in attendance daily. The promotion rate is 99%. Students who are in need of extra assistance in mastering academic skills are provided with remediation during the school day to ensure annual learning gains are achieved.

Within a nurturing environment, Air Base Elementary will stimulate students' academic skills through a strong curriculum foundation and an international perspective. Students with disabilities receive instruction through a full-day inclusion/co-teaching model. Pre-kindergarten Students with Disabilities participate in a reverse mainstreaming instructional program. Gifted students are enrolled in a home based content model Reading/ Language Arts program. ESOL strategies are provided to ELL students by endorsed teachers. Additionally, enrichment opportunities are provided to students through weekly technology, science, and geography lab experiences. An Advanced Academic Program is offered to qualifying fifth grade. Students in Kindergarten and grade one have an extended school day in order to accommodate the Foreign Language and Fine Arts curriculum.

### **Leadership:**

Results according to the Self Assessment survey completed by the school site faculty and staff indicate that Leadership ranked at the highest category a 4.7 out of 5 possible points. The findings reveal the following: The faculty recognized that their administration demonstrates dynamic leadership in support of the mission and vision of Air Base Elementary. The working environment is conducive to positive academic success and all stakeholders are kept informed.

### **District Strategic Planning Alignment:**

The Strategic Planning category received the score of 4.4 out of a possible 5 points. This indicates a need to involve all of its employees in the development of goal setting. Input from all stakeholders is considered an essential part of program improvement. At Air Base Elementary there is ongoing communication between the school leadership team and the stakeholders. This collaboration is essential in selecting educational programs that are tailored to students' needs. Educational programs include interactive staff, parent, and student activities. A unique, specialized magnet curriculum is implemented by a well-prepared, knowledgeable foreign language faculty. Innovation is encouraged and new ideas are given every opportunity to succeed.

### **Stakeholder Engagement:**

The results of this category with an average score of 4.6 out of a possible 5 points. This indicates that ongoing communication and collaborative decision making between all stakeholders is essential. A humanistic approach to leadership includes representation from all stakeholder groups in its primary decision-making organization, the Educational Excellence School Advisory Council (EESAC). The Leadership Team in the school provide professional and personal growth opportunities that empower stakeholders to make informed decisions. A consistency in partnership efforts between parents, community members, and the school enhance a strong link for continued student achievement.

### **Faculty & Staff:**

The results of this category with an average score of 4.5 out of a possible 5 points indicate that there is general satisfaction in how information and data is disseminated. Air Base Elementary is committed to establishing additional time for collaboration among teachers. All grade levels have common planning time, achieved through block scheduling. Each grade level chairperson convenes a weekly meeting to discuss activities for the month and to share best practices. Grade level chairpersons also meet bi-monthly with the administration to discuss activities/concerns. Additionally, vertical teaming opportunities are offered during staff development days to ensure articulation across subject areas and grade levels. Committees have also been established to promote the multidisciplinary facets of the school's goals and to focus on district and school initiatives.

All faculty and staff members are given the option to participate in professional growth activities aimed at improving student academic performance. Therefore, teachers create individualized Professional Development Plans to guarantee quality instruction. Furthermore, a school-based beginning teacher program offers new teachers opportunities for growth and professional development by assigning mentor teachers. Collaboration among the teachers allows for continued support, improved performance, and ongoing self-assessment.

### **Data/Information/Knowledge Management:**

The result of this category is an average score of 4.6 out of a possible 5 points. This indicates that staffs are adept at measuring, reviewing, and analyzing the quality of their work. Data is utilized to monitor progress on a daily basis. The staffs' high expectations and value of quality products ensure that all students' unique needs and learning styles are addressed. The data generated continues to guide our instruction, projected in-services, and staff development.

### **Education Design:**

Results of this category are concurrent with the lowest score of 4.4 out of a possible 5 points, indicate that additional curricular resources are required to meet state standards, achieve maximum academic growth, and reach student achievement goals. Air Base Elementary will continue to incorporate a continuous improvement model, which includes the Plan, Do, Study, Act (PDSA) implemented to facilitate a framework for efficient work

# School Improvement Plan 2007-2008

## **Performance Results:**

Results of this category, with an average score of 4.4 out of a possible 5 points, indicate a general satisfaction with the school efforts to improve performance. The school has maintained its state accountability grade for 7 consecutive years as well as making learning gains. It reflects the administration's emphasis on complying with laws and regulations. The student attendance rate is 96 percent and staff attendance rate is 95 percent. Air Base Elementary is committed to high standards and ethics

### **Science Statement**

Students will continue to improve science processing skills until all are proficient.

### **Needs Assessment**

The results of the 2007 Science test administration reflect 51 percent of our students met high standards. These scores reflect a decrease of 3 percent as compared to the 2006 administration of the Science FCAT/SSS. Sixty seven percent of these students mastered the physical/chemical components of the FCAT. Fifty three percent of these students mastered the earth/space components of the FCAT. Fifty eight percent of these students mastered the life/environmental components of the FCAT. Sixty seven percent of these students mastered the scientific thinking component of the FCAT.

### Measurable Objective

Given instruction based on the Sunshine State Standards, the number of students meeting high standards in grade five will increase by 10 percent to 61% on the 2008 FCAT Science Test as compared to the 2007 administration of the FCAT Science Test.

### **Parental Involvement Statement**

The school will provide increased opportunities for parents to be actively involved in their child's educational experiences.

### **Needs Assessment**

A review of parent participation logs for the 2006-2007 school year indicate a 25 percent increase in the level of parent participation in the school based activities when compared to the 2005-2006 school year. Improvement is still needed to increase participation and support from parents in order to insure excellence in student achievement.

### Measurable Objective

Given increased attention to parental involvement, there will be a five percent increase in parental participation/attendance at school sponsored activities, as evidenced by parent participation logs and attendance rosters for the 2007-2008 school year, as compared to those of the 2006-2007 school year.
