SCHOOL IMPROVEMENT PLAN

EXECUTIVE SUMMARY

Miami Heights Elementary School

Miami Heights Elementary, a Title I school which has demonstrated outstanding academic achievement since 2002, has committed itself to providing educational excellence for all students since 1963. The school serves 1386 students from pre-kindergarten through fifth grade. The ethnic/racial makeup of the student population is 81 percent Hispanic, nine percent Black Non-Hispanic, six percent white, one percent Asian, and three percent Indian/Multiracial.

Our school provides various stimulating programs such as the Sanron Teach Me Writing Program for kindergarten through fifth grade which assists our students with creating dynamic writing pieces. In addition, the Houghton Mifflin Core Reading Series provides enriched and interesting story selections which correlate to the Sunshine State Standards. This series also contains an abundance of supplemental materials for our students and teachers which provide a link to parental involvement through weekly parent newsletters. To enhance the mathematics curriculum, our students participate in daily FCAT Math Moments, which focus on FCAT mathematic strategies via the morning announcements.

Given instruction using the Sunshine State Standards 72 percent of students in grades three through five will score at a level three or above as documented by the 2007 FCAT Reading Assessment.

Given instruction using the Sunshine State Standards 68 percent of students in grades three through five will score at a level three or above as documented by the 2007 FCAT Mathematics Assessment.

Given instruction using the Sunshine State Standards 90 percent of students in grade four will score at a 3.5 or higher on the 2007 FCAT Writing Assessment.

Given instruction using the Sunshine State Standards 50 percent of students in grade five will score at a level three or above as documented by the 2007 FCAT Science Assessment.

Given the importance between school, home and community an increase in parental participation and attendance in school sponsored activities will increase by 10 percentage points when comparing the 2005 – 2006 Title I Parent Outreach Monthly School Report, which stated that 2701 parents participated in school site activities throughout the instructional year, to the 2006 – 2007 Title I Parent Outreach Monthly School Report.

Given the implementation of the School-wide Discipline Plan, the administration will decrease the number of outdoor suspensions by 20 percent for the 2006-2007 school year as evidenced by the outdoor suspension report.

Given increased attention to enhancing the use of technology, our school will improve the use of programs such as FCAT Explorer, Riverdeep, Accelerated Reader, Star, Microsoft Outlook and Classworks as evidenced by an average score of two on the 2007 STaR School Profile.

Given the need to improve student physical fitness, students will be administered the FITNESSGRAM in grades two through five. Achievement will be demonstrated as evidenced by three percent of students exceeding the 2005-2006 percentage of 73 percent.

Given school wide initiative to involve students in extracurricular programs, 120 students in grades two through five will participate in extra-curricular activities as evidenced by 2006-2007 attendance records from clubs.

Given the State of Florida ROI index publication, Miami Heights Elementary School will improve its ranking from the 59th percentile in 2003 to the 69th percentile on the next publication of the index.

As our school continues to strive in excellence our focus on high academic standards, exceptional leadership, and the commitment to building a strong foundation for our customers, including strong values and good character traits is evident. The Self-Assessment Survey, completed by both full and part-time staff members, revealed two areas where improvements can be made. While all areas scored an average score of 4.0, the two areas with the lowest scores were Business Results and Strategic Planning. Miami Heights Elementary will address these two areas by implementing a systematic approach that centers on the strategic planning process which provides for the involvement of numerous stakeholders, including business partners, more focus groups, surveys and the implementation of a monthly Curriculum Newsletter.

School Foundation

Leadership:

According to the Organizational Performance Improvement Self Assessment Survey (OPIS) completed by the faculty and staff, leadership has driven the continuous improvements organization, while the work environment motivates communication of school goals, to inform and practice procedures for conducive professional growth that contribute to the on-site stakeholders organization's success.

District Strategic Planning Alignment:

The faculty and staff recognize the importance of the organization's goals. Through the leadership of the administration, the staff assigned an average score of 4.0 as related to the following statements: I know how my location's plans will affect my work and my work location asks for my ideas. High numerical values were also assigned to statements relating to knowledge of the organization's plans and the impact on the faculty and their work. Overall, stakeholders feel that the administration values and respects their input and ideas.

Stakeholder Engagement:

Based on the analysis of the results of the OPIS, the customer indicates that our students express satisfaction with being aware of their academic performance and high expectations/standards of their level of work. The stakeholders acknowledge that customers are the most important (4.5) and their customers feel comfort in expressing their needs and wants (4.4).

Faculty & Staff:

The school's faculty and staff have expressed, on the portion of the OPIS, evidence that the school's administration is helpful in their assistance to the community by giving this statement a 4.1 out of a total score of 5.0. The work environment and team cohesiveness is evident in the survey with high scores given. Additionally, the stakeholders expressed satisfaction in the provision of a safe workplace with an average score of 4.4.

Data/Information/Knowledge Management:

The implementation of data analysis and measurement effectively aligns with the OPIS indicating that stakeholders comprehend how to quantify their efforts through their daily classroom instruction. The overall average score of measurement analysis and knowledge management is 4.4 from the OPIS completed by the faculty and staff. In order to disaggregate the data to the stakeholders, emphasis on district, state, and all requirements in the No Child Left Behind Act will continue to be closely tied to the School Improvement Plan.

Education Design:

Results of the OPIS proved our area of educational process to be a strength, given a score of 4.2 out of 5 in the areas of having good work process and control over those processes. The faculty also recognizes the importance of measuring the quality of their work (4.5). In addition, the importance of the analysis and decision making is also addressed in their work.

Performance Results:

On the OPIS category Customer and Market Focus, the faculty responded favorably to questions regarding customer service with an average score of 4.0 to 4.5. The stakeholders commit themselves to the importance of the customer/school involvements.

GOAL 1 STATEMENT:

All students in third through fifth grade will demonstrate high academic achievement in reading.

Needs Assessment

Results of the 2006 FCAT Reading Assessment indicate that 78 percent of students in grades three through five met the state mastery level of three or higher. In addition 65 percent of students demonstrated learning gains. Comparison of third grade Reading FCAT scores indicate an increase in students scoring at a Level three and above by six percentage points and a decrease in students scoring level one and two by five percentage points.

FCAT Reading Assessment results indicate that 68 percent of fourth grade students and 58 percent of fifth grade students scored at a level three or above. Greater emphasis is needed in decreasing the number of students scoring at a Level one or two in fourth and fifth grades.

As per the No Child Left Behind Act (NCLB) the adequate yearly progress report students in Students with Disabilities subgroup did not meet the desired forty-four percent of Level three or above on the 2006 FCAT Reading Assessment. Increased emphasis is needed in increasing the number of Students with Disabilities making adequate yearly progress by ten percent.

Data across grade levels shows evidence that the area of greatest need is Comparisons for third grade, Main Idea/Purpose, Comparisons, and Reference/Research for fourth grade, and all benchmarks for fifth grade.

Research-Based Programs

1. Houghton Mifflin Core Reading Program
2. America Reads! Tutorial Program
3. Voyager Passport
4. Comprehensive Research-Based Reading Program

Professional Development

- Comprehensive Research-Based Reading Plan training for new teachers.
- DIBELS administration training for teachers in kindergarten through fifth grade.
- EduSoft training for all teachers in order to assist with assessments and alignment of data for instruction.
- FCAT Data Review for all teachers in order to inform them of our instructional goals, based on AYP results.
- Accelerated Reader training and overview for all teachers in kindergarten through fifth grade.
- Literacy Centers training for teachers in kindergarten through third grade.
- DAR administration training for teachers in kindergarten through fifth.
- PMRN Reports training on how to analyze data for teachers in kindergarten through fifth grade.
- Continuous Improvement Model training for all instructional staff.

Evaluation

This objective will be evaluated using the results of the 2007 FCAT Reading Assessment. In addition, reports generated from the Progress Monitoring and Reporting Network, Edusoft, in-house pre- tests, post-tests, teacher-made assessments, district interim assessments and after school tutorial program assessments will be used throughout the year to monitor progress towards meeting the objective.

Needs Assessment

Results of the 2006 FCAT Reading Assessment indicate that 77 percent of students in grades three through five met the state mastery level of three or higher. In addition, 74 percent of students demonstrated learning gains. Fourth grade mathematics FCAT scores indicate an increase in students scoring at a level three and above by 16 percentage points and a decrease in students scoring at level one and two by 15 percentage points. FCAT Mathematics Assessment results indicate that 74 percent of third grade students and 51 percent of fifth grade students scored at a level three or above. Expository writing is a strength with 85 percent scoring 3.5 or above compared to 70 percent in narrative. These results indicate that further instruction should be concentrated on developing narrative writing skills. Multiple choice items from FCAT Writing+ indicate that there is an increased instructional need in the areas of focus, organization, support, and conventions.

GOAL 4 STATEMENT:

All students will demonstrate high academic achievement in science as dictated by the Sunshine State Standards.

Needs Assessment

Results of the 2006 FCAT Science Assessment showed that 16 percent of fifth grade students performed at a Level three or higher. Proficiency levels in physical and chemical, earth and space, life and environmental, and scientific thinking scored at 50 percent, 43 percent, 46 percent and 50 percent on the 2005-2006 administration of the FCAT Science Test.

The need during the 2006-2007 FCAT Science Assessment is to improve student performance in each of the tested science content cluster areas, and improve in the number of students demonstrating mastery.

Research-Based Programs

McGraw Hill Science Series
SciencaSaurus

Professional Development

- All new teachers to the school will be provided training on the effective use of FOSS kits.
- Teachers will be trained on the scientific method and the implementation of hands-on science in weekly science instruction.
- Teachers will be trained on utilizing the instructional focus calendar.
- Continuous Improvement Model training for all instructional staff.

Evaluation

This objective will be evaluated by scores of the 2007 FCAT Science Test. In-house pre and post-test reports will provide formative assessments which will be used to monitor progress toward meeting the objective.

GOAL 5: PARENTAL INVOLVEMENT

Miami-Dade County Public Schools

District Strategic Plan

Ensure achievement of high academic standards by all students.	Develop our students so that they are able to successfully compete in the global economy.	Actively engage family and community members to become our partners in raising and maintaining high student achievement.	Reform business practices to ensure efficiency, effectiveness and high ethical standards.	Recruit, develop and retain high-performing, diverse, and motivated faculty and staff.
<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

GOAL 5 STATEMENT:

The school will provide opportunities to promote and improve active participation of parental and family involvement.

Needs Assessment

Parental involvement continues to be an area of concern for our school's faculty and staff. As evidenced by the 2005-2006 Title I Parent Outreach monthly school report, there is a 22 percent average in the level of parent participation in school based activities. In order to maximize the total efforts of parents and students, parental participation will continue to be one of the elements driven to link the home to school connection in the 2006-2007 school year.

Measurable Objective

Given the importance between school, home and community an increase in parental participation and attendance in school sponsored activities will increase by 10 percentage points when comparing the 2005 – 2006 Title I Parent Outreach Monthly School Report, which stated that 2701 parents participated in school site activities throughout the instructional year, to the 2006 – 2007 Title I Parent Outreach Monthly School Report.

GOAL 6 STATEMENT:

Students will demonstrate an understanding of appropriate behavior and an appreciation for a structured environment.

Needs Assessment

Outdoor suspensions during the 2005-2006 school year amounted to 66 days. The days missed greatly affect the educational opportunities these students need to be successful. As a result, there is a need to lower the number of outdoor suspensions.

Measurable Objective

Given the implementation of the School-wide Discipline Plan, the administration will decrease the number of outdoor suspensions by 20 percent for the 2006-2007 school year as evidenced by the outdoor suspension report.

GOAL 7 STATEMENT:

Miami Heights Elementary will employ the usage of technology tools to assist students in their learning.

Needs Assessment

According to the 2006 STaR School Profile, teacher access to technology which averaged a score of one, merits greater emphasis in order to infuse technology and prepare our students towards a global community.

Measurable Objective

Given increased attention to enhancing the use of technology, our school will improve the use of programs such as FCAT Explorer, Riverdeep, Accelerated Reader, Star, Microsoft Outlook and Classworks as evidenced by an average score of two on the 2007 STaR School Profile.

GOAL 8 STATEMENT:

Miami Heights Elementary will implement strategies to improve students' awareness of health and physical fitness that promote lifetime fitness for daily living and overall wellness.

Needs Assessment

According to the 2005-2006 Physical Fitness Test, FITNESSGRAM, 70 percent of students in grades two through five were award winners. After examining the data pertinent to the school's performance, it was determined that a greater focus is needed on the students' performance in the areas of endurance and upper body strength.

Measurable Objective

Given the need to improve student physical fitness, students will be administered the FITNESSGRAM in grades two through five. Achievement will be demonstrated as evidenced by three percent of students exceeding the 2005-2006 percentage of 73 percent.

Action Steps

GOAL 9 STATEMENT:

All students will develop an appreciation for the arts through the implementation of extra-curricular activities.

Needs Assessment

Students at the school site are heavily involved in academic programs to support student achievement. As a result, students have fewer opportunities to participate in extra-curricular activities. Students at our school site are particularly interested in the arts. As a result, a strings club, recorder club and chess club will be implemented for students.

Measurable Objective

Given school wide initiative to involve students in extracurricular programs, 120 students in grades two through five will participate in extra-curricular activities as evidenced by 2006-2007 attendance records from clubs.

Action Steps

GOAL 10 STATEMENT:

Miami Heights Elementary School will rank at or above the 90th percentile statewide in the ROI index of value and cost effectiveness of its programs.

Needs Assessment

The most recent data supplied from the FLDOE indicate that in 2005, Miami Heights Elementary School ranked at the 59th percentile on the State of Florida ROI index.

Measurable Objective

Given the State of Florida ROI index publication, Miami Heights Elementary School will improve its ranking from the 59th percentile in 2003 to the 69th percentile on the next publication of the index.

EESAC Compliance

YES	NO	
<input checked="" type="checkbox"/>	<input type="checkbox"/>	<i>The majority of the Board of Directors/EESAC members are not employed by the school. The Board of Directors SAC is composed of the principal, and an appropriately balanced number of teachers, education support employees, students (for middle, junior high and high school only), parents, and other business and community citizens who are representative of the ethnic, racial, and economic community served by the school.</i>

Budget:

EESAC has recommended that the EESAC budget be used to fund additional instruction, after-school tutoring, provide additional student incentives and administrative projects that will assist in the continued academic achievement of the student body.

Training:

Training for all faculty members in the programs of: Accelerated Reader, Electronic Gradebook, and FCAT strategies should continue, with particular learning opportunities in the area of technology.

Instructional Materials:

The District mandated texts should accompany all academic instruction, and resources should be provided to enhance instruction within these areas. In addition, research based curriculum materials should be provided.

Technology:

Technology will continue to play a large role at the school site. Students should have access to computers on a daily basis and be given increased learning opportunities in computer programs such as: Microsoft Word, Microsoft Outlook, FCAT Explorer and Riverdeep.

Staffing:

School support staff will continue to be funded through financial needs. Paraprofessionals and staff members will tutor students with low academic performance. This will assist in lowering class size and increasing the number of students making learning gains on the 2007 FCAT Test.

Student Support Services:

The Student Support Services Team will provide support to all classroom teachers by providing assistance to referred students in a timely manner. Also, the team will reach out to parents and families to provide workshops and resources which may assist them.

Other Matters of Resource Allocation:

Allocations will be made to address building improvements such as upgrading technology. Provisions will also be made to assist in obtaining resources for Red Ribbon Week, Exceptional Student Education(ESE) Week and Pan-American Week.

Benchmarking:

The EESAC fully supports academic programs provided by the District office. All instruction will be aligned to the Sunshine State Standards and will be in compliance with all District and school benchmarks.

School Safety & Discipline:

The EESAC will assist the counselors in developing a conflict resolution team comprised of students in grades 3-5 to mediate problems that arise amongst their peers.
