# SCHOOL IMPROVEMENT PLAN

## EXECUTIVE SUMMARY

---

### *Charles David Wyche, Jr. Elementary School*

---

Charles D. Wyche Jr. Elementary opened during the 1996-1997 school year. The state of the art facility located at 5241 N.W. 195 Drive, Miami, FL 33055 was occupied in April of 1997. The school is located in Regional Center One and is a part of the American Senior High Feeder Pattern. It presently houses one thousand ninety five students in pre-kindergarten to fifth grade. Additionally, the school has a home-based Gifted program, the Academic Excellence Program, and Italian and Spanish Extended Foreign Language programs in grades kindergarten to five. The school continuously explores opportunities for improvement. The findings at the inception of the 2006-2007 school year revealed the need for further revision and implementation of the School Improvement Plan. The administration and faculty, in collaboration with the ESSAC, have assembled the following measurable goals for the 2006-2007 school year:

Given instruction using the Sunshine State Standards, students in grades 3-5 will improve their reading skills as evidenced by seventy-six percent of the total school population scoring Level 3 or higher on the 2007 Florida Comprehensive Assessment Test (FCAT) Reading Assessment.

Given instruction using the Sunshine State Standards, students in grades 3-5 will improve their mathematics skills as evidenced by seventy-two percent of the total school population scoring at Level 3 or higher on the 2007 Florida Comprehensive Assessment Test (FCAT) Mathematics Assessment.

Given instruction using the Sunshine State Standards, students in grade 4 will improve their writing skills as evidenced by ninety-two percent scoring 3.5 or higher on the 2007 Florida Comprehensive Assessment Test (FCAT) Writing+ Assessment.

Given instruction using the Sunshine State Standards, students in grade 5 will improve their science skills as evidenced by fifty-four percent of the fifth grade population scoring Level 3 or higher on the 2007 Florida Comprehensive Assessment Test (FCAT) Science Assessment.

Given emphasis on the importance of parental involvement, the percent of parent participation in school activities will increase by one percent, when the 2005-2006 and 2006-2007 parental participation attendance logs are compared.

Given Critical Incident Response requirements from the district, procedures/action steps for promoting and maintaining a safe learning environment and emergency management procedures for Miami-Dade County Public Schools, one hundred percent school-wide compliance will be evidenced by the Fire Alarm Safety Inquiry Program.

Given emphasis on the faculty's technology knowledge, the percent of technology utilization will increase by one percent for the 2006-2007 school-year, as evidenced in a comparison of the beginning/end of year technology needs survey.

Given instruction using the Sunshine State Standards and the National Standards for Physical Education, the percentage of fourth and fifth grade students passing the FITNESSGRAM test will increase by one percent on the post-test as compared to the pre-test.

Given instruction using the Competency-Based Curriculum, students in grades 2-5 will improve their language proficiency in Spanish by a one percent increase on the district developed post-test as compared to the pre-test.

Given Charles D Wyche Jr. Elementary's Return On Investment, thier percentile ranking will increase by at least one percentile point on the next publication of the index.

After reviewing and analyzing the data results from the Organizational Performance Improvement Online Survey, the two areas identified for improvement were Human Resource Focus and Business Results. Within the Human Resource Focus and the Business Results, there was a decrease in the average score. A staff incentive plan will be developed and implemented. In-house staff development will be implemented to provide staff with information related to the business aspect as it relates to the operation of the school and its expenditures.

## *School Demographics*

---

Charles D. Wyche Jr. Elementary opened during the 1996-1997 school year. The state of the art facility located at 5241 N.W. 195 Drive; Miami, FL 33055 was occupied in April of 1997. The school is located in Regional Center I and is a part of the American Senior High Feeder Pattern. It presently houses 1,095 students in pre-kindergarten to fifth grade. The student ethnic composition is 71% percent Hispanic, 22% percent Black Non-Hispanic, 4 percent White Non-Hispanic, and less than 3 percent Other. The teacher ethnic composition is 17% White Non-Hispanic, 37% Black and 46% Hispanic. The percentage of students on free meals is 53% and the percentage of students on reduced meals is 16%. The teacher degree composition is 64% with Bachelor's Degrees, 28% with Master's Degrees, and 8% with Specialists Degrees.

Approximately fifty percent of the students presently attending Charles D. Wyche Jr. Elementary are bussed. The community is comprised of single family homes and apartments. The surrounding neighborhood has a variety of small businesses.

The school provides educational services based on the Sunshine State Standards and the Competency Based Curriculum. The Houghton Mifflin Reading program is in place and is supplemented by tutorials at several grade levels.

Wyche Elementary also enjoys a collaborative relationship with Florida Memorial College, Florida International University, Nova Southeastern University and Union Institute with our teachers providing supervision to interns from those institutions. Additionally, the school has a home-based Gifted program, and Italian and Spanish Extended Foreign Language programs in grades kindergarten to five. Instruction is provided in traditional classroom settings and is enhanced through cross-curricular and computer-based learning activities.

Charles D. Wyche Jr. Elementary School has been the recipient of many distinguished awards including, the United Way Student Campaign Goal Award, Golden School Volunteer Award, District Gold Award for Academic Performance, and the Diamond Award presented as a result of seven years of distinguished service with the Cordis Corporation. Among the grants the school has been fortunate to receive are the Reading First Grant, the Arts For Learning Grant, the Education Fund Grant and the Visual Arts Technology Program Grant. Although the overall atmosphere and the educational thrust of the school are headed in a very positive direction, there are still challenges that the school faces, for instance, the ability to upgrade technology and to provide staff development in science and mathematics. Also, due to attendance boundaries, more than half of the student population is bussed. As a result of these transportation issues, participation in after-school activities is compromised.

### **GOAL 1 STATEMENT:**

Charles D. Wyche Jr. Elementary School will improve performance in Reading.

### **Needs Assessment**

An analysis of the data revealed that on the 2006 Reading FCAT seventy-five percent of students met high standards, sixty-two percent made learning gains and fifty-seven percent of students scoring in the lowest twenty-five made learning gains. In addition sixty-nine percent of all students tested achieved proficiency as per the No Child Left Behind (NCLB) adequate yearly progress report, while sixty-four percent of the Limited English Proficient (LEP) students attained level 3 or above. After reviewing student performance on the FCAT, third grade students showed a deficiency in Words/Phrases and Comparison, fourth grade students showed a deficiency in Words/Phrases and Comparison, and fifth grade students showed a deficiency in Main Idea/Purpose and Comparison.

### ***Needs Assessment***

A variety of opportunities were planned for all parents to become involved in at least one activity, twice during the school year, in collaboration with the Educational Excellence Advisory Council (EESAC) and the school PTA. According to the attendance logs, there was an average of seventy-two percent parent participation for such events. After reviewing the data, we plan to continue to provide parents with opportunities to become involved in school activities.

## Measurable Objective

Given emphasis on the importance of parental involvement, the percent of parent participation in school activities will increase by one percent, when the 2005-2006 and 2006-2007 parental participation attendance logs are compared.

### ***Budget:***

Money allocated per student from the EESAC will be utilized to implement programs (i.e.: tutorials) to improve student performance in reading, mathematics and writing.

### ***Training:***

The EESAC recommends to increase professional development through in –services, workshops and conferences.

### ***Instructional Materials:***

Through the EESAC recommendations, efforts to purchase reading, mathematics, science and technology materials will be made to improve instruction.

### ***Technology:***

The EESAC continues to target strategies that will enhance student technological skills.

### ***Staffing:***

The EESAC recommends a lower teacher-student ratio.

### ***Student Support Services:***

The EESAC recommends continued efforts in improving attendance, punctuality, and Character Education curriculum for student support services.

### ***Other Matters of Resource Allocation:***

The EESAC recommends that teachers pursue alternative funding methods such as grants to enhance the instructional program.

***Benchmarking:***

Comprehensive Reasearched-Based Reading Plan and the Reading First Grant requires periodic benchmark evaluation. The EESAC continues to target strategies that will supplement the reading program.

***School Safety & Discipline:***

The EESAC has recommended that we continue to implement the DARE program, Safety Patrols and other safety programs as they become available and follow guidelines as delineated in procedures for promoting and maintaining a safe learning environment and in management procedures.
